Fall 2018 Class Schedule

Course Name	Instructor	Course Description
ABOTA (Tent.)	Matthews, D.	Lecture series by experienced and prominent Arkansas trial attorneys, lecturing on case evaluation, jury instructions, witness preparation, scheduling orders, courtroom civility, voir dire, opening statements, direct and cross-examination, objections, and closing arguments.
Administrative Law	Kelley	Administrative law is a foundational course for those who anticipate representing clients directly or indirectly affected by federal agency actions. This covers everyone living in the U.S. and many persons abroad.
Agriculture & the Environment	Kelley	Agriculture is increasingly criticized for its impact on the environment. This course examines the tensions between the desire to produce food and fiber efficiently and concern for sustainability and the protection of natural resources.
American Legal History	Killenbeck, M.	An examination of major themes in American legal history, with an emphasis on the origins and meaning of the United States Constitution. Various topics will be explored in the light of the original understandings, developments over time, and current interpretations by the courts and the body politic.
Antitrust	Foster, S.	Federal anti-trust laws and their relationship to concentrations of economic power in the contexts of monopoly mergers, price fixing, economic boycotts and discrimination, re-sale price maintenance, dealer franchises, and exclusive dealing. Comparative analysis of free enterprise market and government regulated industries. Recommended for second- and third-year students interested in business practice or government service, as well as social welfare, or students with an interest in the subject.
Appellate Advocacy	Rudofsky, L.	This course in Appellate Advocacy will marry the theoretical concepts and practical skills key to successful appellate lawyering. The course assumes a basic familiarity with the appellate process and will build on this familiarity to analyze the pitfalls and opportunities associated with appellate advocacy. The course will cover the following: issue spotting, brief preparation, oral argument preparation, and oral argument. We will together hear from practitioners and judges, who each have an important perspective on how to effectively brief and argue an appeal. We will together review briefs and oral arguments in recent cases of interest.

Arbitration	Comstock	This course explores the practical as well as the legal problems presented by the use of alternative dispute resolution (ADR) to resolve disputes, with an emphasis on employment. While other areas of ADR will be touched upon, such as mediation and peer-review, the primary focus of the course will be on arbitration as the means to resolve problems in the workplace and commercial context generally. The course provides instruction and practice (through a variety of simulations) assessing all aspects of arbitration, including when/whether to arbitrate, selecting the arbitrator, conducting an arbitration, and post-hearing issues. Students will become familiar with the most common techniques and strategies that lawyers use in employment arbitration, and should be better prepared to represent your client's interests in that proceeding.
Bankruptcy	Judge Taylor	Study of insolvency law, with particular emphasis on federal bankruptcy law.
Basic Evidence	Nunn	Study of the rules of evidence under which trials are conducted; the methods by which items of evidence are admitted or excluded; relevancy, real evidence, testimonial proof, and hearsay and its exceptions.
Basic Title Examination	Daily	Basic Title Examination is a course designed to teach students how to examine abstracts of title and other compilations of public real estate records to determine ownership and marketability of surface title. The course utilizes the theoretical understanding gained from traditional substantive law courses including Property and Decedents' Estates but teaches applied practical skills not usually taught in those courses.
Business Organizations	Goforth	Course is constructed around different forms of business organizations, with emphasis on agency and partnership law, and corporation law.
Civil Procedure	Brill & Trammell	Study of the process of civil litigation from preliminary matters such as court selection and jurisdiction, through joinder of parties and discovery techniques, to disposition of cases and finality of judgments. Some attempt is made to cover the antecedents of modern procedure; where appropriate, suggestions for reform are developed in class discussion. Emphasis is on the Federal Rules of Civil Procedure.
Clinic - Criminal Practice (Skills)	Murphy	The Criminal Practice Clinic represents clients charged with misdemeanor and simple felony charges primarily in Washington County. Under close faculty supervision, students develop their ability to effectively and ethically practice law while providing much-needed legal assistance. In addition to client representation, and court appearances, students participate in a weekly seminar. Qualification for Rule XV practice. Prerequisite: LAWW 6093 Basic Evidence, LAWW 4173 Criminal Procedure, and LAWW 5013 Professional Responsibility.

Clinic - Federal Practice Clinic	Tarvin	In this skills-certified course students are closely supervised in the preparation and filing of consumer chapter 7 bankruptcy cases for individuals and spouses from intake interview through discharge. The skill set taught includes information and fact gathering during a series of taped interviews, ethically handling trust account monies, drafting and filing the bankruptcy petition using document assembly software, appearance before the U.S. Trustee at the First Meeting of Creditors, and negotiating with bankruptcy trustees, creditors and other interested parties. The basic course is for 4 credit hours, and the Advanced course is available for an additional 2 credit hours. The expected learning outcome is to have students gain competence in providing representation in chapter 7 consumer bankruptcies.
Clinic - Immigration Clinic	Zilberman	Immigration Clinic will provide opportunities for students preparing for a career in immigration law or general practice by developing skills that are critical in legal practice through an experiential learning model. Working under the supervision of a clinical faculty member, students will represent sectors of the immigrant population for graded credit. Criminal Procedure and Professional Responsibility are prerequisites, as well as the completion of at least forty-eight credit hours prior to enrollment. Prerequisite: LAWW 5013 Professional Responsibility.
Clinic -Transactional Clinic	Tarvin	Students receive clinical legal experience counseling and representing non-profit organizations serving Northwest Arkansas in a wide range of non-litigation business law matters. Services include startup, incorporation, obtaining federal and state tax exemptions, change of business form, purchase and lease of real and personal property, employment and labor law issues, and general contract negotiation, drafting and execution. In addition, students prepare and participate as presenters in a workshop on matters of general interest to non-profit organizations. Legal Clinic Faculty supervise and review the student attorney's work, and provide personal feedback to the individual student attorneys.
Conflict of Laws	Trammell	Course is about cross-border disputes and choice-of-law questions. Will touch on circumstances under which one jurisdiction will recognize a judgment from a sister jurisdiction.
Contracts	Mathews & S. Foster	Formation and enforcement by litigation and commercial arbitration of commercial and family agreements. Mutual assent or consideration; third-party beneficiaries; assignments; joint obligation; performance; anticipatory breach; discharge of contractual duties; and the Statute of Frauds.

Corp Social Responsibility (8W2)	Ewelukwa Ofodile	Business has helped lift people around the world out of poverty. However, businesses can have a serious impact on human rights. This is true for businesses in the food and agricultural sector. Around the globe companies in all sectors are contributing to human rights abuses. With globalization, the proliferation of multinational corporations, and increase in the scale and volume of foreign direct investment, the situation appears to be getting worse. The course explores the business-human rights nexus with a particular focus on the food and agricultural sector and on case studies from around the world.
Criminal Law	Gallini & Sacharoff	Deals with the questions of what conduct society punishes through a criminal code and of the appropriate punishment for the forbidden conduct. In this context the course includes an analysis of the theories of punishment, the definitions of various crimes, the defenses available to one charged with criminal conduct, and the limitations placed by the Constitution on governmental power in the criminal law area. Throughout the course, special emphasis is placed on the legislature's role in creating statutes alongside the judiciary's corresponding role in interpreting those statutes.
Criminal Procedure	Woods	Concerned with the legal steps through which a criminal proceeding passes, commencing with the initial investigation of a crime and concluding with the release of the defendant. Does not deal exclusively with constitutional problems, although considerable time is spent on them. Recent Supreme Court decisions receive special emphasis. Criminal Procedure does not deal with criminal tactics or with many of the special problems relating to the introduction of evidence at the trial.
Cyber Crime	Sacharoff	This course examines the law governing computer crime and the limits on law enforcement surveillance. We consider substantive crimes such as hacking, identity theft, economic espionage, and online threats before we examine the Fourth Amendment, the Wiretap Act, and other limits on law enforcement.
Debtor-Creditor	Beard	Study of Article 9 of the Uniform Commercial Code and of the remedies of unsecured creditors.
Domestic Relations	Prettyman	Devoted primarily to the problems generated by family relationships. There is a large section on formation and dissolution of marriage. Substantial time is also given to paternity and legitimacy, obligations toward and of children, custody, adoption, guardianship, general property law as it is affected by family relationships, and divorce and custody in the federal system (focusing primarily on enforceability of degrees in one state by courts sitting in another state).
Domestic Relations Drafting Lab	Fairrell	
Employment Law	Nance	An overview of the law governing various aspects of the employment relationship, both statutory and common law. Covers the establishment and parameters of employment, the security of the worker, employer's rights, and terminations.

Entertainment Law	Pieper	Examines the legal principles and relationships of the entertainment industry, with a primary emphasis on the music industry; provides an introduction to the practice of entertainment law and the negotiation of entertainment contracts; highlights a variety of legal and practical issues that arise when representing clients in the entertainment industry.
Environmental Law	Gosman	Devoted primarily to the legal problems related to the environment. Included is consideration of environmental impact in public and private decision making.
Essential Legal Research	Thompson	This course covers the research techniques, books, and databases essential to practicing law. Skills developed include creating a research plan to solve specific practice problems, identifying and locating all of the case law, regulations, and statutes on a question in a jurisdiction and determining their current status through later citation, accessing government documents, assessing what statutes and regulations are in force at a given time, locating or creating legislative histories, locating foreign law, locating international law, determining how best to use treatises, monographs, and journals, and developing elementary skills in finding and utilizing materials and resources from other disciplines, such as medicine, science, or the social sciences.
Federal Income Tax of Individuals	Beard	Fundamentals of the federal income taxation of individuals. Topics covered include gross income, deductions, assignments of income, basis, taxation of property transactions, and tax accounting.
Food Law & Policy	Schneider	An introduction to the network of laws that govern our food system. An overview of regulation by both the Food & Drug Administration and the USDA is provided. Policy considerations are discussed in light of current issues.
Food, Farming, & Sustainability	Schneider	This course provides a survey of agricultural law and the policy issues presented. This course is available as a regular face-to-face class or a distance class. Distance students can either participate by video conference or watch class recordings and prepare a weekly written response in addition to other class exercises.

Health Policy	Griffin, F.	This 3-credit class can be taken either as a traditional class with a final exam or as an upper level writing class (student's choice). The focus will be on policy issues facing the American health care system. Areas of legal practice where attorneys can have an impact on improving health by impacting the social determinants of health will be explored—including health-related housing laws, food and water laws, and social assistance programs. Legal issues surrounding HIV and other communicable diseases will be studied. Employment-related laws that impact health including workers' compensation, social security disability, and the ADA will be reviewed. Health care disparities related race, ethnicity, and gender will be explored along with their legal ramifications. Legal concepts related to beginning-of-life and end-of-life decisions will be discussed, in addition to human biomedical research regulation. The policies and laws underlying health care payment mechanisms—including Medicare, Medicaid, employer-sponsored plans, and individual private plans—will be explored in the context of current law, including the Affordable Care Act (ACA) and recent modifications. Public health laws covering vaccination programs, reportable diseases, child abuse, drug and device approval, etc. will be surveyed. Other issues will be added as time and policy events dictate.
Immigration Law	Devenport	A study of the immigration, nationality, and naturalization laws of the United States; discussion of policy issues relating to migration, refugees, asylum, deportation, and citizenship issues. The Course will also explore pop culture references to immigration issues and examine the truths and fallacies of what is presented for entertainment purposes.
Interviewing, Counseling & Negotiation	Circo & Smith	This course provides instruction and practice in interviewing and counseling clients and in negotiating on behalf of clients in a wide variety of situations. In addition to teaching strategies and techniques, the course will provide extensive practice through the use of simulated exercises. When you complete this course, you should be familiar with the most common interviewing, counseling, and negotiating techniques and strategies, and you should be able to implement those techniques and strategies in many different situations that lawyers face.
Intro to Agricultural Taxation	Davis	Overview of federal income tax law as applied to agricultural operations.
Intro to Intellectual Property	Ewelukwa	This course involves an introductory survey of topics in intellectual property, including copyright, trademark, patent, and unfair competition issues. If time permits, the course may also cover certain aspects of e-commerce.
Labor Law	Nance	The right to organize; organization of labor unions; strikes; picketing; boycotts; collective bargaining; collective labor agreements and their enforcement; unfair labor practices by employers and by unions; the union member and his union; state labor relations legislation; the National Labor Relations Act and the Labor Management Relations Act. Not offered every year.

Legal Operations	Abdullah/Bryan	<p>While everyone leaves law school with the ability to Shepardize a case, very few leave with the ability to manage and lead modern law firms and legal departments. In this course you will learn about the operations principles 21st century legal entities are utilizing - and to which they are being held accountable.</p> <p>Topic will include: Strategic Planning, Financial Management, Vendor Management, Data Analytics, Technology, Change Management, Artificial Intelligence, Outside Counsel Selection and Management, as well as others.</p> <p>In this course you will have weekly viewing/reading assignments, synopses of those assignments, an emphasis on class engagement, and a final project.</p>
LRW I	A. Killenbeck, A. Hurst, Marshfield, & Weatherby	An introduction to the special problems posed by the legal analysis and the expression of the results of that process. The primary emphasis will be on basic legal analysis techniques, basic legal writing skills, and proper citation form. Students will complete a series of writing assignments.
Mastering Legal Analysis	Pollvogt	In this course students will revisit and expand upon the core principles of legal analysis. This course will be based on an active-learning model with a focus on practicing legal analysis under time-pressured conditions. The professor will provide extensive individualized feedback on exercises. The materials for this course will largely be drawn from the written portions of the bar exam (both Arkansas and UBE).
Mediation in Practice (Skills)	J. Taylor	This is a skills class and therefore includes a lot of interactive work, including mock mediations. All students are required to actively participate in the mock mediations. While lecture is part of the course, a significant portion is class discussion and all students are expected to have completed the readings and contribute to the discussion. Due to the condensed structure of the course, the reading for the weekend sessions is very heavy. It is expected that students will have completed the weekend reading assignment prior to class.
Nonprofit Organizations	Hurst, R.	This course examines issues relating to the organization, operation, governance, and dissolution of various nonprofit entities, including charitable and public benefit corporations. Topics covered include the regulation of charitable contributions and their solicitation, obtaining and protecting tax-exempt status, and political and business activities of nonprofit organizations.
Oil & Gas	Norvell	Study of the law of oil and gas with emphasis on the interests that may be created in oil and gas, the rights of the landowner, provisions in the oil and gas lease, the rights of assignees, and legislation dealing with production and conservation.

Oil & Gas Title Examination	Daily	Oil and Gas Title Examination is a course designed to teach students who have successfully completed Basic Title Examination how to use abstracts of title and other compilations of public real estate records to determine ownership and marketability of minerals, including oil and gas, and oil and gas leasehold, royalty, overriding royalty and other similar interests. The course utilizes the theoretical understanding gained from traditional real property and oil and gas law courses, but teach practical skills not currently taught in the usual classroom setting. Pre- or Corequisite: LAWW 5031.
Payment Systems	Matthews	This course summarizes and explains the fundamental law applicable to a broad variety of current payment systems. Coverage includes issues of liability, transfer, holder in due course status, and check collection applicable to negotiable instruments (checks, notes, drafts) governed by UCC Articles 3 and 4, as well as letters of credit and documents of title governed by UCC Articles 5 and 7. The course further examines the rights, obligations, and federal protection applicable to credit and debit cards. Finally, it addresses recent legal developments in regard to a variety of electronic fund transfers, prepaid cards and digital currencies.
Product Liability	Lens	An intensive study of the area including a review of the theories of liability; the concepts of product and defect; potential defendants; defenses; problems of proof and causation.
Professional Responsibility	Brill	Role of the lawyer as counselor, advocate, and public servant; obligation to society of the individual lawyer and the profession as a whole; ethical problems of the profession; representation of the unpopular cause and the desirable client, lawyers' obligation to law reform; lawyer and the press; the lawyer in public service; the aspects of law office management.
Public Corporations	Goforth	A survey of topics applicable to publicly owned corporations, including: corporate governance; shareholder communication and proxy regulation; introduction to corporate finance and dividend policies; mergers and acquisitions; tender offer regulation; aspects of securities regulation; and insider trading. Prerequisite: LAWW 4294.
Real Estate Transactions	Circo	Focuses on real estate transfer, real estate finance and real estate development. Issues relating to the sale of land and conveyances of real property, mortgages and the planning, financing, constructing and marketing of modern real estate developments are treated.
Remedies	Lens	Covers equity (jurisdiction and powers of courts of equity, injunctions, including adequacy of legal remedies, balancing of equities, interests protected, and defenses), damages (compensatory, exemplary, and nominal damages; direct and consequential damages; mitigation; special application in contract and tort actions) and restitution (relief afforded by the judicial process, to prevent unjust retention of benefits).
The Right to Food (First 8 Weeks)	Ewelukwa	This course will provide an overview of the historical development of the right to food, evaluate the rights, obligations and responsibilities of rights-holders and duty-bearers of the right to food, and will examine legal and non-legal mechanisms that are increasingly used to adjudicate the right to food.

Security Regulations	W. Foster	This course explores the federal regulation of securities, with emphasis on the Securities Act of 1933 and the Securities Exchange Act of 1934. Topics examined include: the definition of a securities, public company disclosures, enforcement issues, antifraud rules, and insider trading liability, public offering mechanics, and exempt offerings. Prerequisite: LAWW 4294.
Sports Law	Carroll	The major topics covered include significant contract issues, tort liability involving participants, institutions, physicians and equipment manufacturers, criminal liability, drug testing, constitutional and related issues dealing with sports associations and Title 9 and gender equity issues. Other relevant topics may also be covered if possible.
Trial Advocacy	TBD	An introduction to actual trial work and trial techniques through simulated exercises and the conduct of a mock trial.
ULW: Contract Drafting (Tent.)	Regnier	This class covers essential concepts and practices in the drafting of commercial agreements. Students will practice translating client goals in a business deal into legally enforceable provisions, drafted clearly and without ambiguity. Students will further develop competency in anticipating consequences, assessing risks, structuring transactions, and problem solving along with the ability to clearly explain each of these in plain English. The course aims to build upon concepts learned in first year Contracts and in the first year legal writing program, although the research may be factual in nature, or may involve locating appropriate forms or models, rather than traditional legal research.
ULW: Health Policy	Griffin	This course is designed to provide an introduction to important legal concepts relevant to providing legal assistance to hospitals, doctors, insurance companies, policymakers, and patients. The laws underlying the business of health care will be considered as they apply to hospitals and other health care entities, governance and structure of health care organizations, competition among providers, and health care fraud and abuse.
ULW: Journal Writing	Hurst, A.	
ULW: Race & the Law	Clowney	
Urban Ag. Law & Local Food Systems	Civita	Study of the legal issues raised by the rising interest in urban agricultural activities. Topics of study include land use and zoning issues, farmers market issues, and legal issues associated with community sponsored agriculture.
Wills, Trusts, & Estates	Clowney	This is the study of the traditional areas of wills and trusts (intestate and testate succession). The trusts area includes both the private trust and the charitable trust. Taxation problems are not covered in depth but are instead reserved for the Federal Estate & Gift Taxation course.
